Royal Alloy GP 125cc S LC E5 2022

£4,499 ^{+OTR}
from £71.75 p/m

ETA April A truly authentic retro scooter packed full of style

Another metal bodied beauty, this time adding modern liquid engine cooling to the mix. The GP125 LC will give fantastic and reliable town based riding due to its low maintenance, reliable, liquid-cooled 125cc engine. Its 11-litre fuel tank will also mean less frequent fuel stops. Again with full disk brakes and 12-inch wheels you will feel safe and secure buzzing around on this stunning scooter. The S Model features CBS instead of ABS Braking system to offer more choice in the flagship 125cc engine model. Performance and specification fused into a perfect package of useability, jaw-dropping looks and attention to detail elevate this attention-grabbing machine into something impossible to ignore.
